Mechanical Breakdown Insurance, underwritten by AXA Insurance UK plc.

Type of Insurance and Cover

Mechanical breakdown cover, for cars and light commercial vehicles up to 3500kg gross vehicle weight. This insurance provides cover for repair or replacement costs, incurred as a result of breakdown, as defined in the policy wording.

You are insured up to the single claim limit in respect of each claim and the sum insured as a total for all claims. The sum insured will be reduced by the cost of any claim during the period of insurance.

Eligibility

You are eligible for this insurance, provided at inception and during the period of insurance your vehicle:

- Is a car or light commercial vehicle up to 3500kg gross weight
- Is permanently registered in the UK
- Is insured by a motor insurance policy issued by an insurer authorised in the UK
- Was imported by the manufacturer or its authorised importer into the UK
- Is not included in the section entitled Excluded Vehicles
- Is not used for any of the usage specified under the section of this cover entitled Excluded vehicle uses
- Is not a new vehicle sold without a manufacturer guarantee.

Significant Features and Benefits

This insurance covers most of the mechanical, electrical and electronic parts of the vehicle that were the manufacturers original fitment.

The following list includes some of the items not automatically included under this policy; however you can include cover for these upon payment of an additional premium.

- Multi-media Pack (factory fitted)
- Airbag system - all components (excluding Air bag)
- Alarm system (excluding remote transmitters and key fobs).

Mechanical Breakdown Insurance Policy

The insurance covers the vehicle against the breakdown of mechanical and electrical components of the vehicle that were the manufacturers original specification except those listed in the "What is Not Covered section".

Please Note: This mechanical breakdown insurance does not cover failure due to wear and tear or impact damage.

In addition the following non-mechanical and non-electrical components are covered.

Casings, Catalytic Converter, Heater Matrix, Oil Cooler, Radiator, Timing Belt, Working Materials.

Casings

The following casings are only covered if their failure is a direct result of a failure of a covered component and will constitute part of the total claim subject to the policy limits:

Cylinder Block, Cylinder Head, Gearbox Casing, Axle housing.

Catalytic Converter

The cost of replacement of the insured vehicle's catalytic converter(s), following the failure of the exhaust gas to meet the relevant in-service emissions standard.

Subject to the following:

- The catalytic Converter being found to be no longer serviceable.
- The results of the failed test being made accessible to the claims office before authorisation is requested.
- The results printed out from a successful test following the replacement are submitted to the claims office with the repair invoice.

Heater Matrix

The heater matrix is covered against sudden core or joint failure.

Oil Cooler

The oil cooler is covered against sudden core or joint failure.

Radiator

The radiator is covered against sudden core or joint failure.

Timing Belt

If the timing belt has been changed in accordance with the time or mileage requirements specified by the manufacturer (receipt required) it will be covered against mechanical breakdown.

Working Materials

Should any authorised repair to any of the above components, require essential replacement or topping up of lubricants, oils or coolant, or replacement of the oil filter, these shall be covered as part of the total claim, within the policy limits.

All vehicles are checked on the HPI register for Stolen / Finance O/S / Mileage Discrepancy / Write Off / and Major Accident Damage etc for all brands.

What is Not Covered and General Conditions

- Your vehicle must be serviced in accordance with the manufactures requirements during the period of insurance. You must keep all service invoices as these will be needed when making a claim.
